SUBJECT INDEX*

A

Abdominal aneurysms, ruptured, presenting with unilateral peripheral neuropathy (Fletcher and Frankel), 120
aortic aneurysm and renal hamartoma in infant with tuberous sclerosis (Hagood et al.), 713
Abdominal wall, musculoaponeurotic fibrosis of: desmoid tumor (Caldwell), 104
Abscess, splenic (Lawhorne and Zuidema), 686
Acids, amino, arterial plasma, in patients with serious postoperative infection and in patients with major fractures (Woolf et al.), 283
Adenosine deaminase levels in blood type A patients with metastatic tumor (Formeister and Tritsch), 111
Air embolization during machine preservation of kidney (Eslami and Ribot), 356
Allograft(s), acutely rejecting rat cardiac, studies in infiltrating host cells harvested from (Tilney et al.), 209
human cadaver renal, with antilymphocyte serum (ALS) and donor bone marrow, possible active enhancement of: case report of initial attempt (Monaco et al.), 384
isografts, and xenografts, pancreatic islet: comparison of morphology and function (Weber et al.), 144
renal, recipients, total and active T cell dynamics in (Kerman and Geis), 398
rejection, irreversible, serum lactic dehydrogenase and (Anderson et al.), 161
Alloimplantation, parathyroid, in rat, liver as privileged site for (Pfeffermann et al.), 182
Allotransplants, renal, computer processed technetium-99m–DTPA studies of (Pavel et al.), 152
American Society of Transplant Surgeons: inaugural (Starzl), 129
Amikacin, emergence of resistance to, during treatment of burn wounds: role of antimicrobial susceptibility testing (Overturf, Zawacki, and Wilkins), 224
Amino acids, arterial plasma, in patients with serious postoperative infection and in patients with major fractures (Woolf et al.), 283
Amputation, below-knee, index of healing in: leg blood pressure by Doppler ultrasound (Barnes, Shanik, and Slaymaker), 13
Anaerobic infections in surgery: clinical review (Anderson, Marr, and Ballinger), 313
Anal evisceration, spontaneous rupture of rectosigmoid colon with: new complication of uterine prolapse (Shafiroff, Carnevale, and Delany), 360
Analog, synthetic prostaglandin, influence of, on pancreatic secretion (Rosenberg et al.), 509
Anemia, chronic, wound healing, and red cell 2,3-diphosphoglycerate (Fong et al.), 218
Aneurysm(s), abdominal aortic, and renal hamartoma in infant with tuberous sclerosis (Hagood et al.), 713
dissecting, of hepatic artery, fibrodysplasia with (Pinkerton, Wood, and Fowler), 721
formation in expanded polytetrafluoroethylene prostheses: addendum (Campbell et al.), 485
gastroduodenal arterial: report of case and review of literature (Sethi and Nelson), 233
ruptured abdominal, presenting with unilateral peripheral neuropathy (Fletcher and Frankel), 120
Aneurysmectomy, celiac artery: case report with review of literature (Haimovici et al.), 592
Angiography, visceral (Warren) (editorial), 363
Angiosarcoma of breast: report of two cases and review of literature (Dunegan, Tobon, and Watson), 57
Anticoagulation, optimal level of, for decreasing experimental metastases (Hoover, Jones, and Ketcham), 625
Antilymphocyte serum (ALS) and donor bone marrow, possible active enhancement of human cadaver renal allograft with: case report of initial attempt (Monaco et al.), 384
Antimicrobial susceptibility testing, role of: emergence of resistance to amikacin during treatment of burn wounds (Overturf, Zawacki, and Wilkins), 224
Aorta and both renal arteries, revascularization of kidney after occlusion of (Hertzer et al.), 52
Aortic aneurysm, abdominal, and renal hamartoma in infant with tuberous sclerosis (Hagood et al.), 713
patch, dynamic, permanent in-series cardiac assistance with: blood-prosthesis interaction in long-term canine experiments (Schraut et al.), 193
Aortofemoral prostheses, focal infection of (Weber et al.), 310
Appendicitis, acute, perforation of diverticulum of terminal ileum presenting as (Kraus, Sampson, and Wilson), 724
Arterial bypass, clinical experience with modified human umbilical cord vein for (Dardik et al.), 618
emboli, peripheral, changing clinical trends in patients with (Hight, Tilney, and Couch), 172
flow velocity, directional: sensitive index of changes in peripheral vascular resistance (Rittenhouse et al.), 350
gastroduodenal, aneurysms: report of case and review of literature (Sethi and Nelson), 233
jump graft: new vascular access for hemodialysis (Butt and Kountz), 474
plasma amino acids in patients with serious postoperative infection and in patients with major fractures (Woolf et al.), 283
Artery(ies), celiac, aneurysmectomy: case report with review of literature (Haimovici et al.), 592
common carotid, of rat, scanning electron microscopic observations of. III. Heparin effect on platelets (Gregorius and Rand), 584
emboli, isolated metachronous renal (Patel and Harris), 37
hepatic, fibrodysplasia with dissecting aneurysm of (Pinkerton, Wood, and Fowler), 721
polar, reconstruction, microvascular techniques for, in kidney transplants (Merkel et al.), 253
pulmonary, thermistor catheter, practical considerations for use of (Woods, Scott, and Harken), 469
renal, aorta and, revascularization of kidney after occlusion of (Hertzer et al.), 52
superior mesenteric, flow, effect of dehydration and cardiac tamponade on: role of vasoactive substances (Adar et al.), 534
Arteriosclerotic occlusive disease, current status of femoropopliteal bypass for: panel discussion (Barker et al.), 30
Arteriovenous fistulas, femoral, large and small, in dogs, regional hemodynamics of (Lough, Giordano, and Hobson), 346
malformation, intra-arterial embolization in management of (Olcott et al.), 3
Atresia, esophageal, with tracheoesophageal fistula, modified method for repair of (López-Pérez), 499

*January, pp. 1-122; February, pp. 123-240; March, pp. 241-362; April, pp. 363-484; May, pp. 485-606; June, pp. 607-744.

Autografts and homografts, renal, adverse effect of high-dose steroids on (Tremann et al.), 370
Autologous clot embolization, retracted, nonoperative treatment of massive pyloroduodenal hemorrhage by (Eisenberg and Steer), 414
Autotransfusion, intraoperative, in major elective vascular operations: clinical assessment (Wall et al.), 82
Autotransplantation of porcine islets of Langerhans (Lampe, Sutherland, and Najarian), 138

B

Bacillus Calmette-Guerin, neuraminidase-treated cells and, immunotherapy with (Kollmorgen et al.), 202
Below-knee amputation, index of healing in: leg blood pressure by Doppler ultrasound (Barnes, Shanik, and Slaymaker), 13
Biopsy apparatus, new electric drill, for breast tumors (Samejima and Nakajima), 590
Blood, colloid, and crystalloid, response of diastolic myocardial tissue pressure and regional coronary blood flow to increased preload from (Baird and Adiseshiah) 644
  flow measurement, quantitative ultrasonic, in Dacron grafts (LoGerfo and Corson), 569
    regional coronary, response of diastolic myocardial tissue pressure and, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
      and oxygen consumption, effects of severe progressive hemodilution on (Wright), 299
    renal, and sodium and water excretion, effects of treatment on: renal function after thermal trauma (Monafo et al.), 342
  pressure, leg, by Doppler ultrasound: index of healing in below-knee amputation (Barnes, Shanik, and Slaymaker), 13
  prosthesis interaction in long-term canine experiments: permanent in-series cardiac assistance with dynamic aortic patch (Schraut et al.), 193
  whole, trace element concentrations during total parenteral nutrition (Hankins et al.), 674
Bone marrow, donor, possible active enhancement of human cadaver renal allograft with antilymphocyte serum (ALS) and: case report of initial attempt (Monaco et al.), 384
Bowel, malrotation of, in infants and children: 15 year review (Stewart, Colodny, and Daggett), 716
  short, revisited (Mackby) (editorial), 1
Breast, angiosarcoma of: report of two cases and review of literature (Dunegan, Tobon, and Watson), 57
  tumors, new electric drill biopsy apparatus for (Samejima and Nakajima), 590
Burn, skin, from freon preparation (Klein and Leape) (letter to editors), 122
  wound(s), emergence of resistance to amikacin during treatment of: role of antimicrobial susceptibility testing (Overturf, Zawacki, and Wilkins), 224
    sepsis, Pseudomonas, evaluation of prototype therapeutic system for prolonged, continuous topical delivery of homosulfanilamide in management of (Vistnes et al.), 690
Bypass, arterial, clinical experience with modified human umbilical cord vein for (Dardik et al.), 618
  autologous saphenous vein femoropopliteal: analysis of 298 cases (Cutler et al.), 325
  femoropopliteal, for arteriosclerotic occlusive disease, current status of: panel discussion (Barker et al.), 30
  jejunoileal, after re-establishment of normal intestinal continuity, reversibility of severe hepatic damage caused by (Soyer, Ceballos, and Aldrete), 601
    unusual complication of pneumatosis cystoides intestinalis (Sicard, Vaughan, and Wise), 480
  left ventricular, quantitative evaluation of, in reducing myocardial ischemia (Pennock, Pierce, and Waldhausen), 523

C

Cadaver, human, renal allograft with antilymphocyte serum (ALS) and donor bone marrow, possible active enhancement of: case report of initial attempt (Monaco et al.), 384
  transplants, perfusion time and survival of (Toledo-Pereyra et al.), 377
Cadaveric kidneys, use of plasma protein fraction in preservation of (Mendez-Picon et al.), 364
Calmette-Guerin, bacillus, neuraminidase-treated cells and, immunotherapy with (Kollmorgen et al.), 202
Cancer patients, effect of operation on immune response in: sequential evaluation of in vitro lymphocyte function (Roth et al.), 46
Canine experiments, long-term, blood-prosthesis interaction in: permanent in-series cardiac assistance with dynamic aortic patch (Schraut et al.), 193
  kidneys, isolated, evidence for humoral factor in unilaterally nephrectomized dogs stimulating renal growth in (Shames, Murphy, and Berkowitz), 573
Carcinoma of colon, age distribution of patients with, in general hospital in Iran (Vakili and Fatourechi), 118
  of main hepatic duct junction, is, indication for liver transplantation or palliative surgery? Plea for U tube palliative procedure (Terblanche) (editorial), 127
Cardiac allografts, rat, acutely rejecting, studies on infiltrating host cells harvested from (Tilney et al.), 209

  surgery, infection control in (Clark et al.), 89
  tamponade, dehydration and, effect of, on superior mesenteric artery flow: role of vasoactive substances (Adar et al.), 534
Carotid artery, common, of rat, scanning electron microscopic observations of. III. Heparin effect on platelets (Gregorius and Rand), 584
  occlusive disease, hemodynamically significant, accuracy of supraorbital Doppler examination in diagnosis of (Lye, Sumner, and Strandness), 42
Catamenial pneumothorax (Soderberg and Dahlquist), 236
Catheter(s), central venous, potentially fatal complications of (Adar) (letter to editors), 726; reply (Magovern), 726
  emboli, peripheral, localization of, with xeroradiography (Andrassy et al.), 340
  pulmonary artery thermistor, practical considerations for use of (Woods, Scott, and Harken), 469
Cation content, importance of: forty-eight hour storage of kidneys (Collins and Halasz), 432
Cava, vena, left inferior, interposition mesocaval H shunt associated with (Crawford and Wolfe), 678
Celiac artery aneurysmectomy: case report with review of literature (Haimovici et al.), 592
Cell(s), osteogenic sarcoma, transfer of in vitro cytotoxicity against (Sutherland et al.), 682
  T, dynamics, total and active, in renal allograft recipients (Kerman and Geis), 398
    levels, lymphocyte reactivity and, in vitro, in patients with melanoma: correlations with clinical and pathological stage (Silverman et al.), 332
Central venous catheters, potentially fatal complications of (Adar) (letter to editors), 726; reply (Magovern), 726
Cerebral ischemia, hemispheric, limitations of Doppler cerebrovascular examination in (Bone and Barnes), 577
Cerebrovascular examination, Doppler, limitations of, in hemispheric cerebral ischemia (Bone and Barnes), 577
Cholecystectomy, plea for safer technique of (Hermann) (editorial), 609
Chronic anemia, wound healing, and red cell 2,3-diphosphoglycerate (Fong et al.), 218
Circulation, intact, in situ kidney preservation for transplantation with use of profound hypothermia (5 to 20° C.) with (Moossa, Zarins, and Skinner), 60
Cirrhosis, coexisting, massive hemorrhage from ileosotomy and colostomy stomas due to mucocutaneous varices in patients with (Graeber, Ratner, and Ackerman), 107
Clot embolization, retracted autologous, nonoperative treatment of massive pyloroduodenal hemorrhage by (Eisenberg and Steer), 414
Collagenase and elastase released during peritonitis are complexed by plasma protease inhibitors (Ohlsson), 652
Colloid, blood, and crystalloid, response of diastolic myocardial tissue pressure and regional coronary blood flow to increased preload from (Baird and Adiseshiah), 644
Colon, carcinoma of, age distribution of patients with, in general hospital in Iran (Vakili and Fatourechi), 118
  rectosigmoid, spontaneous rupture of, with anal evisceration: new complication of uterine prolapse (Shafiroff, Carnevale, and Delany), 360
Colostomy, ileostomy and, stomas, massive hemorrhage from, due to mucocutaneous varices in patients with coexisting cirrhosis (Graeber, Ratner, and Ackerman), 107

Common carotid artery of rat, scanning electron microscopic observations of. III. Heparin effect on platelets (Gregorius and Rand), 584
Computer processed technetium-99m–DTPA studies of renal allotransplants (Pavel et al.), 152
Congenital partial pericardial defect: surgical correction by partial pericardiectomy through a median sternotomy (Garcia-Rinaldi et al.), 448
Contraction, gastric mucosal (Rosin, Exarchakos, and Ellis), 560
Cord vein, modified human umbilical, for arterial bypass, clinical experience with (Dardik et al.), 618
Coronary blood flow, regional, response of diastolic myocardial tissue pressure and, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
Corrosive esophagitis, management of (Ragheb, Ramadan, and Khalil), 494
Cryptococcosis after renal transplantation: report of ten cases (Schröter et al.), 268
Crystalloid, blood, and colloid, response of diastolic myocardial tissue pressure and regional coronary blood flow to increased preload from (Baird and Adiseshiah), 644
Cyst(s), hydatid, of dome of liver, thoracic problems associated with (Yacoubian), 544
  peritoneal: complication of ventriculoperitoneal shunts (Gutierrez and Raimondi), 188
Cystoides, pneumatosis, intestinalis: unusual complication of jejunoileal bypass (Sicard, Vaughan, and Wise), 480
Cytotoxicity, in vitro, transfer of, against osteogenic sarcoma cells (Sutherland et al.), 682

D

Dacron grafts, knitted, degeneration of (Hayward and Korompai), 581
  quantitative ultrasonic blood flow measurement in (LoGerfo and Corson), 569
Deaminase, adenosine, levels in blood type A patients with metastatic tumor (Formeister and Tritsch), 111
Dehydration and cardiac tamponade, effect of, on superior mesenteric artery flow: role of vasoactive substances (Adar et al.), 534
Dehydrogenase, serum lactic, and irreversible renal allograft rejection (Anderson et al.), 161
Desmoid tumor: musculoaponeurotic fibrosis of abdominal wall (Caldwell), 104
Diabetic transplant patient, hyperglycemic pseudorejection in (Matas et al.), 132
Diastolic myocardial tissue pressure and regional coronary blood flow, response of, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
Diathermy, scalpel and, incision, experimental study of gastric healing following (Rosin, Exarchakos, and Ellis), 555
2,3-diphosphoglycerate, red cell, chronic anemia, wound healing, and (Fong et al.), 218
Directional arterial flow velocity: sensitive index of changes in peripheral vascular resistance (Rittenhouse et al.), 350
Dissecting aneurysm of hepatic artery, fibrodysplasia with (Pinkerton, Wood, and Fowler), 721
Dissection, radical neck, high ligation of internal jugular vein in (Chakravorty) (letter to editors), 606
Diverticulum, perforation of, of terminal ileum presenting as acute appendicitis (Kraus, Sampson, and Wilson), 724
Dogs, plasma levels of secretin in man and: validation of secretin radioimmunoassay (Rayford et al.), 658
  regional hemodynamics of large and small femoral arteriovenous fistulas in (Lough, Giordano, and Hobson), 346
  unilaterally nephrectomized, stimulating renal growth in isolated canine kidneys, evidence for a humoral factor in (Shames, Murphy, and Berkowitz), 573
Dome of liver, thoracic problems associated with hydatid cyst of (Yacoubian), 544
Doppler cerebrovascular examination, limitations of, in hemispheric cerebral ischemia (Bone and Barnes), 577
  examination, supraorbital, accuracy of, in diagnosis of hemodynamically significant carotid occlusive disease (Lye, Sumner, and Strandness), 42
  ultrasound, leg blood pressure by: index of healing in below-knee amputation (Barnes, Shanik, and Slaymaker), 13
Drain, irrigation-sump (Fuller) (letter to editors), 240
Drill biopsy apparatus, new electric, for breast tumors (Samejima and Nakajima), 590
Drugs of abuse, hemodynamic effects of intra-arterial injection of (Wright, Lamoy, and Hobson), 425
DTPA, technetium-99m–, computer processed, studies of renal allotransplants (Pavel et al.), 152
Duodenogastric reflux of lysolecithin in pathogenesis of experimental porcine stress ulceration (Kivilaakso et al.), 65
Duodenum, vascular compression of: presentation of ten cases and review of literature (Akin, Gray, and Skandalakis), 515
DVT or not DVT? That is the question (O'Donnell, Abbott, and Darling), 607
Dynamic aortic patch, permanent in-series cardiac assistance with: blood-prosthesis interaction in long-term canine experiments (Schraut et al.), 193

E

Educational programs in university departments of surgery, expansion of (Peacock) (editorial), 123
Elastase, collagenase and released during peritonitis are complexed by plasma protease inhibitors (Ohlsson), 652
Electric drill biopsy apparatus, new, for breast tumors (Samejima and Nakajima), 590
Electrical gradient, microcirculation and, gastric mucosal, direct effect of endotoxin on (Cheung, Reese, and Moody), 564
Electron microscopic, scanning, observations of common carotid artery of rat. III. Heparin effect on platelets (Gregorius and Rand), 584
Emboli, isolated metachronous renal artery (Patel and Harris), 37
  peripheral arterial, changing clinical trends in patients with (Hight, Tilney, and Couch), 172
    catheter, localization of, with xeroradiography (Andrassy et al.), 340
Embolism, air, levodopa-enhanced recovery from paralysis induced by (Popovic, Popovic, and Schaffer), 100
Embolization, air, during machine preservation of kidney (Eslami and Ribot), 356
  intra-arterial, in management of arteriovenous malformations (Olcott et al.), 3
  retracted autologous clot, nonoperative treatment of massive pyloroduodenal hemorrhage by (Eisenberg and Steer), 414
  therapeutic, gastric infarction after (Bradley and Goldman), 421
Endotoxin, direct effect of, on gastric mucosal microcirculation and electrical gradient (Cheung, Reese, and Moody), 564
Enteral hyperalimentation: new apparatus for administration (Gougeon), 697
Ergotism, vascular insufficiency secondary to (Kempczinski, Buckley, and Darling), 597
Esophageal atresia with tracheoesophageal fistula, modified method for repair of (López-Pérez), 499
  leiomyoma, giant, with secondary megaesophagus (Barreiro et al.), 436
Esophagitis, corrosive, management of (Ragheb, Ramadan, and Khalil), 494
Evisceration, anal, spontaneous rupture of rectosigmoid colon with: new complication of uterine prolapse (Shafiroff, Carnevale, and Delany), 360

F

Femoral arteriovenous fistulas, large and small, in dogs, regional hemodynamics of (Lough, Giordano, and Hobson), 346
Femoropopliteal bypass for arteriosclerotic occlusive disease, current status of: panel discussion (Barker et al.), 30
  autologous saphenous vein: analysis of 298 cases (Cutler et al.), 325
Fibrodysplasia with dissecting aneurysm of hepatic artery (Pinkerton, Wood, and Fowler), 721
Fibrosis, musculoaponeurotic, of abdominal wall: desmoid tumor (Caldwell), 104
Fistula(s), congenital tracheoesophageal fistula, tracheomalacia in association with (Benjamin, Cohen, and Glasson), 504
  femoral arteriovenous, large and small, in dogs, regional hemodynamics of (Lough, Giordano, and Hobson), 346
Flow, arterial, velocity, directional: sensitive index of changes in peripheral vascular resistance (Rittenhouse et al.), 350
  regional coronary blood, response of diastolic myocardial tissue pressure and, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
Focal infection of aortofemoral prostheses (Weber et al.), 310
Forty-eight hour storage of kidneys: importance of cation content (Collins and Halasz), 432

Fractures, major, arterial plasma amino acids in patients with serious postoperative infection and in patients with (Woolf et al.), 293
Freon preparation, skin burn from (Klein and Leape) (letter to editors), 122
Furosemide, renal hemodynamic response to, in septic and injured patients (Bradley et al.), 549

G

Gallstone formation, increased, mechanism of, in obese human subjects (Mabee et al.), 460
Gastric healing following scalpel and diathermy incision, experimental study of (Rosin, Exarchakos, and Ellis), 555
infarction after therapeutic embolization (Bradley and Goldman), 421
mucosa of rats, effects of semistarvation and parenteral nutrition on (Oram-Smith and Rosato), 306
mucosal contraction (Rosin, Exarchakos, and Ellis), 560
microcirculation and electrical gradient, direct effect of endotoxin on (Cheung, Reese, and Moody), 564
Gastroduodenal arterial aneurysms: report of case and review of literature (Sethi and Nelson), 233
Gradient, electrical, microcirculation and, gastric mucosal, direct effect of endotoxin on (Cheung, Reese, and Moody), 564
Graft(s), arterial jump: new vascular access for hemodialysis (Butt and Kountz), 474
Dacron, quantitative ultrasonic blood flow measurement in (LoGerfo and Corson), 569
knitted Dacron, degeneration of (Hayward and Korompai), 581
Growth hormone, plasma (Devlin) (letter to editors), 605

H

H shunt, interposition mesocaval, associated with left inferior vena cava (Crawford and Wolfe), 678
Halsted, disciple of: Stephen H. Watts (Chitwood), 293
Hamartoma, renal, abdominal aortic aneurysm and, in infant with tuberous sclerosis (Hagood et al.), 713
Haploidentical, HL-A, donor-recipient pairs, renal transplantation between: functional and morphological evaluation (Seigler et al.), 241
Hematogenous osteomyelitis, acute: experimental model (Deysine, Rosario, and Isenberg), 97
Hemispheric cerebral ischemia, limitations of Doppler cerebrovascular examination in (Bone and Barnes), 577
Hemodialysis, new vascular access for: arterial jump graft (Butt and Kountz), 474
Hemodilution, severe progressive, effects of, on regional blood flow and oxygen consumption (Wright), 299
Hemodynamic effects of intra-arterial injection of drugs of abuse (Wright, Lamoy, and Hobson), 425
response, renal, to furosemide in septic and injured patients (Bradley et al.), 549
Hemodynamically significant carotid occlusive disease, accuracy of supraorbital Doppler examination in diagnosis of (Lye, Sumner, and Strandness), 42
Hemodynamics, regional, of large and small femoral arteriovenous fistulas in dogs (Lough, Giordano, and Hobson), 346
Hemorrhage, massive, from ileostomy and colostomy stomas due to mucocutaneous varices in patients with coexisting cirrhosis (Graeber, Ratner, and Ackerman), 107
pyloroduodenal, nonoperative treatment of, by retracted autologous clot embolization (Eisenberg and Steer), 414
Hemorrhagic shock, alterations in high-energy phosphates in, as related to tissue and organ function (Chaudry, Sayeed, and Baue), 666
species differences in insulin secretory responses during (Hiebert et al.), 451
Heparin effect on platelets. Scanning electron microscopic observations of common carotid artery of rat (Gregorius and Rand), 584
Hepatic artery, fibrodysplasia with dissecting aneurysm of (Pinkerton, Wood, and Fowler), 721
damage, severe, reversibility of, caused by jejunoileal bypass after re-establishment of normal intestinal continuity (Soyer, Ceballos, and Aldrete), 601
duct junction, main, is carcinoma of, indication for liver transplantation or palliative surgery? Plea for U tube palliative procedure (Terblanche) (editorial), 127
Hepatic—cont'd.
transplantation (Starzl) (letter to editors), 727; reply (Terblanche), 727
HL-A haploidentical donor-recipient pairs, renal transplantation between: functional and morphological evaluation (Seigler et al.), 241
Homograft(s), first, some surgical and immunological implications on management of: sequential renal transplants (Freier et al.), 262
renal autografts and, adverse effect of high-dose steroids on (Tremann et al.), 370
Homosulfanilamide, evaluation of prototype therapeutic system for prolonged, continuous topical delivery of, in management of Pseudomonas burn wound sepsis (Vistnes et al.), 690
Hormone, plasma growth (Devlin) (letter to editors), 605
Human cadaver renal allograft with antilymphocyte serum (ALS) and donor bone marrow, possible active enhancement of: case report of initial attempt (Monaco et al), 384
spleen and thymus, suppressor activity of (Sampson et al.), 393
subjects, obese, mechanism of increased gallstone formation in (Mabee et al.), 460
transplant recipients, monitoring and modulation of immune reactivity in (Thomas et al.), 408
umbilical cord vein, modified, for arterial bypass, clinical experience with (Dardik et al.), 618
Humoral factor, evidence for, in unilaterally nephrectomized dogs stimulating renal growth in isolated canine kidneys (Shames, Murphy, and Berkowitz), 573
Hydatid cyst of dome of liver, thoracic problems associated with (Yacoubian), 544
Hyperalimentation, enteral: new apparatus for administration (Gougeon), 697
Hyperglycemic pseudorejection in diabetic transplant patient (Matas et al.), 132
Hypertension, renovascular, predictive accuracy of renal vein renin activity in surgery of (Couch, Sullivan, and Crane), 70
Hypothermia, profound (5 to 20° C.), with intact circulation, in situ kidney preservation for transplantation with use of (Moossa, Zarins, and Skinner), 60

I

Ileosotomy and colostomy stomas, massive hemorrhage from, due to mucocutaneous varices in patients with coexisting cirrhosis (Graeber, Ratner, and Ackerman), 107
Ileum, terminal, perforation of diverticulum of, presenting as acute appendicitis (Kraus, Sampson, and Wilson), 724
Immune reactivity in human transplant recipients, monitoring and modulation of (Thomas et al.), 408
response in cancer patients, effects of operation on: sequential evaluation of in vitro lymphocyte function (Roth et al.), 46
Immunosuppression, cessation of, after renal transplantation (Uehling et al.), 278
Immunotherapy with neuraminidase-treated cells and bacillus Calmette-Guerin (Kollmorgen et al.), 202
In vitro lymphocyte reactivity and T cell levels in patients with melanoma: correlations with clinical and pathological stage (Silverman et al.), 332
In vivo pressure measurements, long-term, pressure measuring system for (Rosenberg et al.), 456
Incision, scalpel and diathermy, experimental study of gastric healing following (Rosin, Exarchakos, and Ellis), 555
Infarction, gastric, after therapeutic embolization (Bradley and Goldman), 421
Infection(s), anaerobic, in surgery: clinical review (Anderson, Marr, and Ballinger), 313
control in cardiac surgery (Clark et al.), 89
operating room (Laufman) (letter to editors), 726; reply (Clark), 727
focal, of aortofemoral prostheses (Weber et al.), 310
serious postoperative, arterial plasma amino acids in patients with, and in patients with major fractures (Woolf et al.), 283
Inferior vena cava, left, interposition mesocaval H shunt associated with (Crawford and Wolfe), 678
Injection, intra-arterial, of drugs of abuse, hemodynamic effects of (Wright, Lamoy, and Hobson), 425
Injured, septic and, patients, renal hemodynamic response to furosemide in (Bradley et al.), 549

Insulin, effect of severe trauma on urine loss of (Meguid, Aun, and Soeldner), 177
secretory responses during hemorrhagic shock, species differences in (Hiebert et al.), 451
Internal jugular vein, high ligation of, in radical neck dissection (Chakravorty) (letter to editors), 606
Interposition mesocaval H shunt associated with left inferior vena cava (Crawford and Wolfe), 678
Intestinal continuity, normal, reversibility of severe hepatic damage caused by jejunoileal bypass after re-establishment of (Soyer, Ceballos, and Aldrete), 601
obstruction, post-traumatic (Shively et al.), 612
Intestinalis, pneumatosis cystoides. unusual complication of jejunoileal bypass (Sicard, Vaughan, and Wise, 480
Intra-arterial embolization in management of arteriovenous malformations (Olcott et al.), 3
injection of drugs of abuse, hemodynamic effects of (Wright, Lamoy, and Hobson), 425
Intramuscular pressure, monitoring of (Matsen et al.), 702
Intraoperative autotransfusion in major elective vascular operatons: clinical assessment (Wall et al.), 82
Iran, age distribution of patients with carcinoma of colon in general hospital in (Vakili and Fatourechi), 118
Irrigation-sump drain (Fuller) (letter to editors), 240
Ischemia, hemispheric cerebral, limitations of Doppler cerebrovascular examination in (Bone and Barnes), 577
myocardial, quantitative evaluation of left ventricular bypass in reducing (Pennock, Pierce, and Waldhausen), 523
Islet, pancreatic, isografts, allografts, and xenografts: comparison of morphology and function (Weber et al.), 144
Isografts, allografts, and xenografts, pancreatic islet: comparison of morphology and function (Weber et al.), 144

J

Jejunoileal bypass after re-establishment of normal intestinal continuity, reversibility of severe hepatic damage caused by (Soyer, Ceballos, and Aldrete), 601
unusual complication of: pneumatosis cystoides intestinalis (Sicard, Vaughan, and Wise), 480
Jugular vein, internal, high ligation of, in radical neck dissection (Chakravorty) (letter to editors), 606
Jump graft, arterial: new vascular access for hemodialysis (Butt and Kountz), 474

K

Kidney(s), air embolization during machine preservation of (Eslami and Ribot), 356
cadaveric, use of plasma protein fraction in preservation of (Mendez-Picon et al.), 364
canine, isolated, evidence for humoral factor in unilaterally nephrectomized dogs stimulating renal growth in (Shames, Murphy, and Berkowtiz), 573
forty-eight hour storage of: importance of cation content (Collins and Halasz), 432
left, rupture of, following a renosplenic shunt (Swanson et al.), 710
preservation, in situ, for transplantation with use of profound hypothermia (5 to 20° C.) with intact circulation (Moossa, Zarins, and Skinner), 60
revascularization of, after occlusion of aorta and both renal arteries (Hertzer et al.), 52
transplants, microvascular techniques for polar artery reconstruction in (Merkel et al.), 253
Knitted Dacron grafts, degeneration of (Hayward and Korompai), 581

L

Laboratory, vascular, criteria for management of peripheral vascular disease of lower extremities (Raines et al.), 21
Lactic dehydrogenase, serum, and irreversible renal allograft rejection (Anderson et al.), 161
Langerhans, porcine islets of, autotransplantation of (Lampe, Sutherland, and Najarian), 138
Left ventricular bypass, quantitative evaluation of, in reducing myocardial ischemia (Pennock, Pierce, and Waldhausen), 523
Leg blood pressure by Doppler ultrasound: index of healing in below-knee amputation (Barnes, Shanik, and Slaymaker), 13
Leiomyoma, giant esophageal, with secondary megaesophagus (Barreiro et al.), 436
Levodopa-enhanced recovery from paralysis induced by air embolism (Popovic, Popovic, and Schaffer), 100
Ligation, high, of internal jugular vein in radical neck dissection (Chakravorty) (letter to editors), 606
Limb salvage, use of expanded microporous polytetrafluoroethylene for limb salvage: preliminary report (Campbell et al.), 485
Liver, dome of, thoracic problems associated with hydatid cyst of (Yacoubian), 544
as privileged site for parathyroid alloimplantation in rat (Pfeffermann et al.), 182
transplantation or palliative surgery, is carcinoma of main hepatic duct junction indication for? Plea for U tube palliative procedure (Terblanche) (editorial), 127
Lymphocyte function, in vitro, sequential evaluation of: effects of operation on immune response in cancer patients (Roth et al.), 46
reactivity and T cell levels, in vitro, in patients with melanoma: correlations with clinical and pathological stage (Silverman et al.), 332
Lysolecithin, duodenogastric reflux of, in pathogenesis of experimental porcine stress ulceration (Kivilaakso et al.), 65

M

Machine preservation of kidney, air embolization during (Eslami and Ribot), 356
Malrotation of bowel in infants and children: 15 year review (Stewart, Colodny, and Daggett), 716
Mandible, reconstruction of defects of (Margolis, Smith, and Davis), 638
Marrow, donor bone, possible active enhancement of human cadaver renal allograft with antilymphocyte serum (ALS) and: case report of initial attempt (Monaco et al.), 384
Median sternotomy, surgical correction by partial pericardiectomy through: congenital partial pericardial defect (Garcia-Rinaldi et al.), 448
Megaesophagus, secondary, giant esophageal leiomyoma with (Barreiro et al.), 436
Melanoma, in vitro lymphocyte reactivity and T cell levels in patients with: correlations with clinical and pathological stage (Silverman et al.), 332
Mesenteric, superior, artery flow, effect of dehydration and cardiac tamponade on: role of vasoactive substances (Adar et al.), 534
Mesocaval H shunt, interposition, associated with left inferior vena cava (Crawford and Wolfe), 678
Metachronous renal artery emboli, isolated (Patel and Harris), 37
Metastases, experimental, optimal level of anticoagulation for decreasing (Hoover, Jones, and Ketcham), 625
metastatic potential of (Roth, Silverstein, and Morton), 669
Metastatic potential of metastases (Roth, Silverstein, and Morton), 669
tumor, adenosine deaminase levels in blood type A patients with (Formeister and Tritsch), 111
Microcirculation and electrical gradient, gastric mucosal, direct effect of endotoxin on (Cheung, Reese, and Moody), 564
Microscopic, scanning electron, observations of common carotid artery of rat. III. Heparin effect on platelets (Gregorius and Rand), 584
Microvascular techniques for polar artery reconstruction in kidney transplants (Merkel et al.), 253
Mucocutaneous varices in patients with coexisting cirrhosis, massive hemorrhage from ileostomy and colostomy stomas due to (Graeber, Ratner, and Ackerman), 107
Mucosa, gastric, of rats, effects of semistarvation and parenteral nutrition on (Oram-Smith and Rosato), 306
Mucosal contraction, gastric (Rosin, Exarchakos, and Ellis), 560
gastric, microcirculation and electrical gradient, direct effect of endotoxin on (Cheung, Reese, and Moody), 564
Musculoaponeurotic fibrosis of abdominal wall: desmoid tumor (Caldwell), 104
Myocardial tissue pressure, diastolic, and regional coronary blood flow, response of, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
Myocardium, shunting, release, and distribution of nine and fifteen micron spheres in (Marshall et al.), 631

N

Neck dissection, radical, high ligation of internal jugular vein in (Chakravorty) (letter to editors), 606
Nephrectomized, unilaterally, dogs, stimulating renal growth in isolated canine kidneys, evidence for humoral factor in (Shames, Murphy, and Berkowitz), 573
Neuraminidase-treated cells and bacillus Calmette-Guerin, immunotherapy with (Kollmorgen et al.), 202
Neuropathy, unilateral peripheral, ruptured abdominal aneurysms presenting with (Fletcher and Frankel), 120
Nutrition, parenteral, semistarvation and, effects of, on gastric mucosa of rats (Oram-Smith and Rosato), 306
  total parenteral, whole blood trace element concentrations during (Hankins et al.), 674

O

Obese human subjects, mechanism of increased gallstone formation in (Mabee et al.), 460
Occlusive, arteriosclerotic, disease, current status of femoropopliteal bypass for: panel discussion (Barker et al.), 30
  carotid, disease, hemodynamically significant, accuracy of supraorbital Doppler examination in diagnosis of (Lye, Sumner, and Strandness), 42
  Operating room infection control (Laufman) (letter to editors), 726; reply (Clark), 727
  Osteogenic sarcoma cells, transfer of in vitro cytotoxicity against (Sutherland et al.), 682
  Osteomyelitis, acute hematogenous: experimental model (Deysine, Rosario, and Isenberg), 97
  Oxygen consumption, regional blood flow and, effects of severe progressive hemodilution on (Wright), 299

Pericardial defect, congenital partial: surgical correction by partial pericardiectomy through a median sternotomy (Garcia-Rinaldi et al.), 448
Pericardiectomy, partial, surgical correction by, through a median sternotomy: congenital partial pericardial defect (Garcia-Rinaldi et al.), 448
Peripheral arterial emboli, changing clinical trends in patients with (Hight, Tilney, and Couch), 172
  catheter emboli, localization of, with xeroradiography (Andrassy et al.), 340
  unilateral, neuropathy, ruptured abdominal aneurysms presenting with (Fletcher and Frankel), 120
  vascular disease of lower extremities, vascular laboratory criteria for management of (Raines et al.), 21
    resistance, sensitive index of changes in: directional arterial flow velocity (Rittenhouse et al.), 350
Peritoneal cysts: complication of ventriculoperitoneal shunts (Gutierrez and Raimondi), 188
Peritonitis, collagenase and elastase released during, are complexed by plasma protease inhibitors, 652
Phosphates, high-energy, alterations in, in hemorrhagic shock as related to tissue and organ function (Chaudry, Sayeed, and Baue), 666
Plasma, arterial, amino acids in patients with serious postoperative infection and in patients with major fractures (Woolf et al.), 283
  growth hormone (Devlin) (letter to editors), 605
  levels of secretin in man and dogs: validation in secretin radioimmunoassay (Rayford et al.), 658
  protease inhibitors, collagenase and elastase released during peritonitis are complexed by (Ohlsson), 652
  protein fraction, use of, in preservation of cadaveric kidneys (Mendez-Picon et al.), 364
Platelets, heparin effect on. Scanning electron microscopic observations of common carotid artery of rat (Gregorius and Rand), 584
Pneumatosis cystoides intestinalis: unusual complication of jejunoileal bypass (Sicard, Vaughan, and Wise), 480
Pneumothorax, catamenial (Soderberg and Dahlquist), 236
Polar artery reconstruction, microvascular techniques for, in kidney transplants (Merkel et al.), 253
Polytetrafluoroethylene, expanded microporous, use of, for limb salvage: preliminary report (Campbell et al.), 485
  prostheses, expanded, aneurysm formation in: addendum (Campbell et al.), 491
Porcine islets of Langerhans, autotransplantation of (Lampe, Sutherland, and Najarian), 138
  stress ulceration, experimental, duodenogastric reflux of, in pathogenesis of (Kivilaakso et al.), 65
Preload, increased, from blood, colloid, and crystalloid, response of diastolic myocardial tissue pressure and regional coronary blood flow to (Baird and Adiseshiah), 644
Preservation, machine, of kidney, air embolization during (Eslami and Riˈvot), 356
Pressure, diastolic myocardial tissue, and regional coronary blood flow, response of, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
  measurements, long-term in vivo, pressure-measuring system for (Rosenberg et al.), 456
  measuring system for long-term in vivo pressure measurements (Rosenberg et al.), 456
Prolapse, uterine, new complication of: spontaneous rupture of rectosigmoid colon with anal evisceration (Shafiroff, Carnevale, and Delany), 360
Prostaglandin analog, synthetic, influence of, on pancreatic secretion (Rosenberg et al.), 509
Prosthesis(es), aortofemoral, focal infection of (Weber et al.), 310
  blood-, interaction in long-term canine experiments: permanent in-series cardiac assistance with dynamic aortic patch (Schraut et al.), 193
  expanded polytetrafluoroethylene, aneurysm formation in: addendum (Campbell et al.), 491
  experimental Replamineform vascular, evaluation of tissue ingrowth into: preliminary report (White et al.), 229
Protease, plasma, inhibitors, collagenase and elastase released during peritonitis are complexed by (Ohlsson), 652
Protein, plasma, fraction, use of, in preservation of cadaveric kidneys (Mendez-Picon et al.), 364
Pseudomonas burn wound sepsis, evaluation of prototype therapeutic system for prolonged, continuous topical delivery of homosulfanilamide in management of (Vistnes et al.), 690
Pseudorejection, hyperglycemic, in diabetic transplant patient (Matas et al.), 132
Pulmonary artery thermistor catheter, practical considerations for use of (Woods, Scott, and Harken), 469
Pyloroduodenal hemorrhage, massive, nonoperative treatment of, by retracted autologous clot embolization (Eisenberg and Steer), 414

R

Radical neck dissection, high ligation of internal jugular vein in (Chakravorty) (letter to editors), 606

Radioimmunoassay, secretin, validation of: plasma levels of secretin in man and dogs (Rayford et al.), 658
Rat cardiac allografts, acutely rejecting, studies on infiltrating host cells harvested from (Tilney et al.), 209
  gastric mucosa of, effects of semistarvation and parenteral nutrition on (Oram-Smith and Rosato), 306
  liver as privileged site for parathyroid alloimplantation in (Pfeffermann et al.), 182
  scanning electron microscopic observations of common carotid artery of. III. Heparin effect on platelets (Gregorius and Rand), 584
Recipients, human transplant, monitoring and modulation of immune reactivity in (Thomas et al.), 408
Rectosigmoid colon, spontaneous rupture of, with anal evisceration: new complication of uterine prolapse (Shafiroff, Carnevale, and Delany), 360
Red cell 2,3-diphosphoglycerate, chronic anemia, wound healing, and (Fong et al.), 218
Regional coronary blood flow, response of diastolic myocardial tissue pressure and, to increased preload from blood, colloid, and crystalloid (Baird and Adiseshiah), 644
  hemodynamics of large and small femoral arteriovenous fistulas in dogs (Lough, Giordano, and Hobson), 346
Rejection, irreversible renal allograft, serum lactic dehydrogenase and (Anderson et al.), 161
Renal allograft, human cadaver, with antilymphocyte serum (ALS) and donor bone marrow, possible active enhancement of: case report of initial attempt (Monaco et al.), 384
    recipients, total and active T cell dynamics in (Kerman and Geis), 398
    rejection, irreversible, serum lactic dehydrogenase and (Anderson et al.), 161
  allotransplants, computer processed technetium-99m–DTPA studies of (Pavel et al.), 152
  artery(ies) aorta and, revascularization of kidney after occlusion of (Hertzer et al.), 52
    emboli, isolated metachronous (Patel and Harris), 37
  autografts and homografts, adverse effect of high-dose steroids on (Tremann et al.), 370
  blood flow and sodium and water excretion, effects of treatment on: renal function after thermal trauma (Monafo et al.), 342
  function after thermal trauma: effects of treatment on renal blood flow and sodium and water excretion (Monafo et al.), 342
  growth in isolated canine kidneys, evidence for humoral factor in unilaterally nephrectomized dogs stimulating (Shames, Murphy, and Merkowitz), 573
  hamartoma, abdominal aortic aneurysm and, in infant with tuberous sclerosis (Hagood et al.), 713
  hemodynamic response to furosemide in septic and injured patients (Bradley et al.), 549
  transplantation between HL-A haploidentical donor-recipient pairs: functional and morphological evaluation (Seigler et al.), 241
    cessation of immunosuppression after (Uehling et al.), 278
    cryptococcosis after: report of ten cases (Schröter et al.), 268
    human, vascular complications in (Vidne et al.), 77
    improved patient survival in (Salvatierra et al.), 166
    in patients with urinary tract abnormalities (Cerilli et al.), 248
    perfusion-related injury in (Hill, Light, and Perloff), 440
  transplants, sequential: some surgical and immunological implications on management of first homograft (Freier et al.), 262
  vein renin activity, predictive accuracy of, in surgery of renovascular hypertension (Couch, Sullivan, and Crane), 70
Renin activity, renal vein, predictive accuracy of, in surgery of renovascular hypertension (Couch, Sullivan, and Crane), 70
Renosplenic shunt, rupture of left kidney following (Swanson et al.), 710
Renovascular hypertension, predictive accuracy of renal vein renin activity in surgery of (Couch, Sullivan, and Crane), 70
Replamineform vascular prostheses, experimental, evaluation of tissue ingrowth into: preliminary report (White et al.), 229
Resistance, peripheral vascular, sensitive index of changes in: directional arterial flow velocity (Rittenhouse et al.), 350
Revascularization of kidney after occlusion of aorta and both renal arteries (Hertzer et al.), 52
Rupture, spontaneous, of rectosigmoid colon with anal evisceration: new complication of uterine prolapse (Shafiroff, Carnevale, and Delany), 360
Ruptured abdominal aneurysms presenting with unilateral peripheral neuropathy (Fletcher and Frankel), 120

S

Saphenous vein femoropopliteal bypass, autologous: analysis of 298 cases (Cutler et al.), 325
Sarcoma cells, osteogenic, transfer of in vitro cytotoxicity against (Sutherland et al.), 682
Scalpel and diathermy incision, experimental study of gastric healing following (Rosin, Exarchakos, and Ellis), 555
Scanning electron microscopic observations of common carotid artery of rat. III. Heparin effect of platelets (Gregorius and Rand), 584
Sclerosis, tuberous, abdominal aortic aneurysm and renal hamartoma in infant with (Hagood et al.), 713
Secretin, plasma levels of, in man and dogs: validation of secretin radioimmunoassay (Rayford et al.), 658
  radioimmunoassay, validation of: plasma levels of secretin in man and dogs (Rayford et al.), 658
Secretory responses, insulin, during hemorrhagic shock, species differences in (Hiebert et al.), 451
Semistarvation and parenteral nutrition, effects of, on gastric mucosa of rats (Oram-Smith and Rosato), 306
Sepsis, Pseudomonas burn wound, evaluation of prototype therapeutic system for prolonged, continuous topical delivery of homosulfanilamide in management of (Vistnes et al.), 690
Septic and injured patients, renal hemodynamic response to furosemide in (Bradley et al.), 549
Serum (ALS), antilymphocyte, and donor bone marrow, possible active enhancement of human cadaver renal allograft with: case report of initial attempt (Monaco et al.), 384
  lactic dehydrogenase and irreversible renal allograft rejection (Anderson et al.), 161
Shock, hemorrhagic, alterations in high-energy phosphates in, as related to tissue and organ function (Chaudry, Sayeed, and Baue), 666
    species differences in insulin secretory responses during (Hiebert et al.), 451
Short bowel revisited (Mackby) (editorial), 1
Shunt(s), interposition mesocaval H, associated with left inferior vena cava (Crawford and Wolfe), 678
  renosplenic, rupture of left kidney following (Swanson et al.), 710
  ventriculoperitoneal, complication of: peritoneal cysts (Gutierrez and Raimondi), 188
Skin burn from freon preparation (Klein and Leape) (letter to editors), 122
Society, understanding relationship of surgery to (Detmer) (letter to editors), 605
Sodium and water excretion, renal blood flow and, effects of treatment on: renal function after thermal trauma (Monafo et al.), 342
Species differences in insulin secretory responses during hemorrhagic shock (Hiebert et al.), 451
Spleen and thymus, human, suppressor activity of (Sampson et al.), 393
Splenic abscess (Lawhorne and Zuidema), 686
Stephen H. Watts: disciple of Halsted (Chitwood), 293
Sternotomy, median, surgical correction by partial pericardiectomy through: congenital partial pericardial defect (Garcia-Rinaldi et al.), 448
Steroids, high-dose, adverse effect of, on renal autografts and homografts (Tremann et al.), 370
Sump, irrigation-, drain (Fuller) (letter to editors), 240
Superior mesenteric artery flow, effect of dehydration and cardiac tamponade on: role of vasoactive substances (Adar et al.), 534
Supraorbital Doppler examination, accuracy of, in diagnosis of hemodynamically significant carotid occlusive disease (Lye, Sumner, and Strandness), 42
Surgeons, Transplant, American Society of: inaugural (Starzl), 129
Surgery, expansion of education programs in university departments of (Peacock) (editorial), 123
  understanding relationship of, to society (Detmer) (letter to editors), 605

SUBJECT INDEX*

A

Abdominal aorta, intravenous rupture of arteriosclerotic aneurysms of (Dardik et al.), 647
  aortic aneurysms, small, growth rates of (Bernstein et al.), 765
    reconstruction, ischemic colitis incidence following: prospective study (Ernst et al.), 417
  incisions with subcutaneous catheters, closure of (McIlrath et al.), 411
Acid(s), gastric, secretion, further evidence for intestinal phase hormone that stimulates (Orloff, Charters, and Nakaji), 145
  plasma amino, effect of normalization of, on hepatic encephalopathy in man (Fischer et al.), 77
  secretion, postprandial, from Heidenhain pouches, failure of pentagastrin administration to restore, after antrectomy in dogs (Keuppens et al.), 586
  volatile free fatty, of blood after hepatectomy, alterations in (Zieve and Nicoloff), 554
Acidosis, hypercapnic, unilateral internal carotid ligation, and hypocapnic alkalosis, influence of: cerebral blood flow determinations by radioactive microspheres in subhuman primate (Hobson et al.), 224
Acute coronary insufficiency, complicated, surgical management of (Scully et al.), 437
Adrenergic blockade and renal hemodynamics (McCombs and Berkowitz), 246
Alkalosis, hypocapnic, unilateral internal carotid ligation, and hypercapnic acidosis, influence of: cerebral blood flow determinations by radioactive microspheres in subhuman primate (Hobson et al.), 224
Allograft, cadaver renal, recipients, randomized clinical trial of antithymocyte globulin in: importance of T cell monitoring (Cosimi et al.), 155
  canine liver, active enhancement of—effect of pretreatment with prednisolone and donor-specific antigen (Lie et al.), 565
  pulmonary, rejection, ^{131}I-fibrinogen in detection of (Bardfeld et al.), 575
  renal, immunological enhancement of, by antireceptor antibody (Stuart, McKearn, and Fitch), 130
    recipients, detection and evaluation of migration stimulatory factor in (Cerilli and Fesperman), 92
  survival, biologic effect of heterophile (HT-A) and nonheterophile (HL-A) compatibility on. Heterophile system in human renal transplantation (McDonald, Evans, and Jacobbi), 14
Amino acids, plasma, effect of normalization of, on hepatic encephalopathy in man (Fischer et al.), 77
Amputation, minor, forefoot perfusion pressure and, for gangrene (Verta et al.), 729
Anastomosis, anterior, of rectosigmoid colon: experimental study (McLachlin, Olsson, and Pitt), 306
Anemia, normovolemic, acute, coronary and cardiovascular dynamics and oxygen availability during (Geha), 47
Anesthesia, method of, for imminent tracheal obstruction (Coles et al.), 379
Aneurysm(s), abdominal aortic, small, growth rates of (Bernstein et al.), 765
  arteriosclerotic, of abdominal aorta, intravenous rupture of (Dardik et al.), 647
  resection, popliteal, with graft, progression of popliteal aneurysmal disease following: twenty year experience (Towne et al.), 426
Aneurysmal disease, popliteal, progression of, following popliteal aneurysm resection with graft: twenty year experience (Towne et al.), 426
Angiography, noninvasive ultrasonic carotid: prospective validation by contrast arteriography (Barnes et al.), 328
Anorexia and weight loss in portacaval-shunted pig (Hickman and Terblanche), 569
Anterior anastomosis of rectosigmoid colon: experimental study (McLachlin, Olsson, and Pitt), 306
  left, descending and mainstem coronary arteries, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
  oral-facial cancers, application of contemporary reconstructive techniques in head and neck surgery for (Joyce and McQuarrie), 373
Antibiotic irrigation, intraperitoneal, protective role of, in contaminated penetrating wounds of cecum (Rakower, Keyes, and Miethaner), 405
Antibody, antireceptor, immunological enhancement of renal allografts by (Stuart, McKearn, and Fitch), 130
Anticoagulation, twenty-four hour membrane oxygenation in dogs without (Fletcher et al.), 214
Antigen, donor-specific, prednisolone and, effect of pretreatment with—active enhancement of canine liver allografts (Lie et al.), 565
Antireceptor antibody, immunological enhancement of renal allografts by (Stuart, McKearn, and Fitch), 130
Antiseptic, new topical, for extensive burns: cerium nitrate (Monafo et al.), 465
Antithymocyte globulin, randomized clinical trial of, in cadaver renal allograft recipients: importance of T cell monitoring, (Cosimi et al.), 155
Antrectomy in dogs, failure of pentagastrin administration to restore postprandial acid secretion from Heidenhain pouches after (Keuppens et al.), 586
Aorta, abdominal, intravenous rupture of arteriosclerotic aneurysms of (Dardik et al.), 647
Aortic aneurysms, abdominal, small, growth rates of (Bernstein et al.), 765
  bifurcation grafts, infected: experience with fourteen patients (Becker and Blundell), 544
  clamping and declamping, role of prostaglandin E in hemodynamic response to (Rittenhouse et al.), 137
  reconstruction, abdominal, ischemic colitis incidence: prospective study (Ernst et al.), 417

*July, pp. 1-144; August, pp. 145-282; September, pp. 283-410; October, pp. 411-534; November, pp. 535-656; December, pp. 657-792.

Aortoiliac disease in high-risk patients, extra-anatomic bypasses for (Plecha and Pories), 480
value of Doppler blood velocity tracings in detection of, in patients with intermittent claudication (Nicolaides et al.), 774
Apicoaortic valved conduit, surgical treatment of left ventricular outflow tract obstruction with (Cooley et al.), 674
Arterial grafts, bovine, further experiences with (Dale and Lewis), 711
ligation, primary, for cancer of colon, technique of, as suggested by venous and lymphatic outflow studies (Ackerman), 312
stenosis, experimental renal, relationship between collateral development and renin in (Ernst, Daugherty, and Kotchen), 252
Arteriography, contrast, prospective validation by: noninvasive ultrasonic carotid angiography (Barnes et al.), 328
Arteriosclerotic aneurysms of abdominal aorta, intravenous rupture of (Dardik et al.), 647
Artery(ies), carotid, stenosis, internal, unoperated, asymptomatic significant; review of 182 instances (Humphries et al.), 695
inoperable, technique for reconstruction of: endarterectomy of left anterior descending and mainstem coronary arteries (Parsonnet et al.), 662
left anterior descending and mainstem coronary, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
middle cerebral, microneurosurgical embolectomy (Dujovny et al.), 336
radial, catheterization, severe ischemia of hand following (Baker, Chunprapaph, and Nyhus), 449
splenic, ligation in experimental hypersplenism (Witte et al.), 581
subclavian, laceration due to migration of Hagie pin (Sethi and Scott), 644
Atresia, biliary, treatment of: microsurgery for hepatic portoenterostomy (Suruga et al.), 558
jejunal, with absent mesentery and helical ileum (Zerella and Martin), 550
Autotransfusion, intraoperative: underutilized technique (Glover et al.), 474
Autotransplantation, total thyroid and parathyroid, for radiation-associated thyroid cancer (Paloyan et al.), 70

B

Bacteria peripheral dissemination of, in contaminated wounds; role of devitalized tissue: evaluation of therapeutic measures (Dhingra, Schauerhamer, and Wangensteen), 535
Belsey hiatus hernia repair, dilatation, and modified Collis gastroplasty, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Benign and malignant teratomas in children: analysis of 85 patients (Grosfeld et al.), 297
Bifurcation grafts, infected aortic: experience with fourteen patients (Becker and Blundell), 544
Bile, hepatic, secretion following cholecystectomy, changes in (Nahrwold and Rose), 178
salt, acute gastric mucosal ulcerogenesis is dependent on concentration of (Ritchie and Shearburn), 98
Biliary atresia, treatment of: microsurgery for hepatic portoenterostomy (Suruga et al.), 558
tract scanning with ^{99m}Tc-pyridoxylideneglutamate: new gallbladder scanning agent (Matolo et al.), 317
Blood after hepatectomy, alterations in volatile free fatty acids of (Zieve and Nicoloff), 554
flow, cerebral, determinations by radioactive microspheres in subhuman primate: influence of unilateral internal carotid ligation, hypercapnic acidosis, and hypocapnic alkalosis (Hobson et al.), 224
renal cortical, and on renin release, effects of pulseless perfusion on distribution of (Goodman et al.), 31
stored, effect of microaggregates in, on canine pulmonary vascular resistance (Giordano et al.), 617
velocity tracings, Doppler, value of, in detection of aortoiliac disease in patients with intermittent claudication (Nicolaides et al.), 774
Body tumors, carotid (Dent, Thompson, and Fry), 365
Bone metastasis, precise selection of breast cancer patients with, for endocrine ablation (Minton), 513
Bovine arterial grafts, further experiences with (Dale and Lewis), 711
Bowel, radiation injuries to, associated with treatment of carcinoma of cervix (Palmer and Bush), 458
small, resection, fifty percent, effect of, on gastric secretory function in rhesus monkeys (Moossa, Skinner, and Winans), 208
Breast cancer patients with bone metastasis, precise selection of, for endocrine ablation (Minton), 513
carcinoma of, surgical implications of estrophile protein estimations in (Walt et al.), 506
Burns, extensive, new topical antiseptic for: cerium nitrate (Monafo et al.), 465
Bypass(es), cardiopulmonary, myocardial reperfusion, cause of ischemic injury during (Engelman et al.), 266
cephalic vein cross-over, for subclavian vein thrombosis: case report (Hashmonai, Schramek, and Farbstein), 563
extra-anatomic, for aortoiliac disease in high-risk patients (Plecha and Pories), 480
gastric, for morbid obesity: results and complications (Hermreck, Jewell, and Hardin), 498
intestinal, for morbid obesity, alterations in body composition following (Spanier et al.), 171
jejunoileal, adverse effects of, on growth and development (Grosfeld et al.), 201
for morbic obesity: early results and body composition changes in forty-five patients (Goldberger et al.) (sponsored by Clowes), 493

C

Cadaver renal allograft recipients, randomized clinical trial of antithymocyte globulin in: importance of T cell monitoring (Cosimi et al.), 155
Calf vein thrombophlebitis, importance of (Moreno-Cabral, Kistner, and Nordyke), 735
Cancer(s), anterior oral-facial, application of contemporary reconstructive techniques in head and neck surgery for (Joyce and McQuarrie), 373
breast, patients with bone metastasis, precise selection of, for endocrine ablation (Minton), 513
of colon, technique of primary arterial ligation for, as suggested by venous and lymphatic outflow studies (Ackerman), 312
radiation-associated thyroid, total thyroidectomy and parathyroid autotransplantation for (Paloyan et al.), 70
therapy, potential adjuvant in: thiabendazole (Lundy et al.), 636
Canine liver allografts, active enhancement of—effect of pretreatment with prednisolone and donor-specific antigen (Lie et al.), 565
pulmonary vascular resistance, effect of microaggregates in stored blood on (Giordano et al.), 617
Carcinoma of breast, surgical implications of estrophile protein estimations in (Walt et al.), 506
of cervix, radiation injuries to bowel associated with treatment of (Palmer and Bush), 458
experimental, of colon, definitive value of active-specific immunotherapy for (Enker and Jacobitz), 164
primary, of liver (McBride), 322
Cardiac surgery in geriatric patients (Smith et al.), 443
Cardiopulmonary bypass, myocardial reperfusion, cause of ischemic injury during (Engelman et al.), 266
Cardiovascular, coronary and, dynamics and oxygen availability during acute normovolemic anemia (Geha), 47
Carotid angiography, noninvasive ultrasonic: prospective validation by contrast arteriography (Barnes et al.), 328
artery stenosis, internal, unoperated, asymptomatic significant: review of 182 instances (Humphries et al.), 695
body tumors (Dent, Thompson, and Fry), 365
endarterectomy, improvement of cognition and personality after (Haynes et al.), 699
ligation, unilateral internal, hypercapnic acidosis, and hypocapnic alkalosis, influence of: cerebral blood flow determinations by radioactive microspheres in subhuman primate (Hobson et al.), 224
stenosis, recurrent (Stoney and String), 705
Catabolism of secretin by liver and kidney (Curtis et al.), 259
Catheterization, radial artery, severe ischemia of hand following (Baker, Chunprapaph, and Nyhus), 449
Catheters, subcutaneous, closure of abdominal incisions with (McIlrath et al.), 411
Cecum, contaminated penetrating wounds of, protective role of intraperitoneal antibiotic irrigation in (Rakower, Keyes, and Miethaner), 405
Cell proliferation, onset of, in shortened gut: growth after subtotal colectomy (Buchholtz et al.), 601

Cephalic vein cross-over bypass for subclavian vein thrombosis: case report (Hashmonai, Schramek, and Farbstein), 563
Cerebral artery, middle, microneurosurgical embolectomy (Dujovny et al.), 336
  blood flow determinations by radioactive microspheres in subhuman primate: influence of unilateral internal carotid ligation, hypercapnic acidosis, and hypocapnic alkalosis (Hobson et al.), 224
Cerium nitrate: new topical antiseptic for extensive burns (Monafo et al.), 465
Cervix, carcinoma of, radiation injuries to bowel associated with treatment of (Palmer and Bush), 458
Chinese hamster, microsurgical technique for orthotopic ovarian transplantation in (Schmidt et al.), 595
Cholecystectomy, changes in hepatic bile secretion following (Nahrwold and Rose), 178
  technique in (Mannix) (letter to editors), 656; reply (Hermann), 656
Cholesterol synthesis, tissue, plasma lipids and, effect of portacaval shunt on, in dog (Coyle et al.), 54
Cirrhosis, late results of terminal esophagoproximal gastrectomy with extensive devascularization and splenectomy for bleeding esophageal varices in (Yamamoto et al.), 106
Claudication, intermittent, value of Doppler blood velocity tracings in detection of aortoiliac disease in patients with (Nicolaides et al.), 774
Cognition and personality, improvement of, after carotid endarterectomy (Haynes et al.), 699
Colectomy, subtotal, growth after: onset of cell proliferation in shortened gut (Buchholtz et al.), 601
Colitis, ischemic, incidence following abdominal aortic reconstruction: prospective study (Ernst et al.), 417
Collis gastroplasty, modified, dilatation, and Belsey hiatus hernia repair, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Colon, cancer of, technique of primary arterial ligation for, as suggested by venous and lymphatic outflow studies (Ackerman), 312
  definitive value of active-specific immunotherapy for experimental carcinoma of (Enker and Jacobitz), 164
  rectosigmoid, anterior anastomosis of: experimental study (McLachlin, Olsson, and Pitt), 306
Computer-based consultation in "care" of critically ill patient (Siegel et al.), 350
Contrast arteriography, prospective validation by: noninvasive ultrasonic carotid angiography (Barnes et al.), 328
Coronary arteries, left anterior descending and mainstem, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
  and cardiovascular dynamics and oxygen availability during acute normovolemic anemia (Geha), 47
  insufficiency, complicated acute, surgical management of (Scully et al.), 437
Cortical blood flow, renal, and on renin release, effects of pulseless perfusion on distribution of (Goodman et al.), 31
Cost of health (Mustard), 283
Cross-over bypass, cephalic vein, for subclavian vein thrombosis: case report (Hashmonai, Schramek, and Farbstein), 563
Cyst, splenic, cystadenocarcinoma of pancreas presenting as (Shuman and Bouterie), 652
Cystadenocarcinoma of pancreas presenting as splenic cyst (Shuman and Bouterie), 652

D

Descending and mainstem coronary arteries, left anterior, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
Dilatation, modified Collis gastroplasty, and Belsey hiatus hernia repair, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Dog(s), effect of portacaval shunt on plasma lipids and tissue cholesterol synthesis in (Coyle et al.), 54
  failure of pentagastrin administration to restore postprandial acid secretion from Heidenhain pouches after antrectomy in (Keuppens et al.), 586
  without anticoagulation, twenty-four hour membrane oxygenation in (Fletcher et al.), 214
Doppler blood velocity tracings, value of, in detection of aortoiliac disease in patients with intermittent claudication (Nicolaides et al.), 774
Duodenum, vascular compression of (Burrington) (letter to editors), 655; reply (Skandalakis), 655

E

Education, undergraduate surgical, role of house staff in (Lowry), 624
Embolectomy, microneurosurgical, middle cerebral artery (Dujovny et al.), 336
Encephalopathy, hepatic, in man, effect of normalization of plasma amino acids on (Fischer et al.), 77
Endarterectomy, carotid, improvement of cognition and personality after (Haynes et al.), 699
  of left anterior descending and mainstem coronary arteries: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
Endocrine ablation, precise selection of breast cancer patients with bone metastasis for (Minton), 513
Enterocolitis, neonatal necrotizing — personal experience (Roty et al.), 340
Erosive gastritis component, early, of stress ulceration, maintenance of gastric mucosal barrier during (Fischer, Jelense, and Fulton, 40
Esophageal varices, bleeding, late results of terminal esophagoproximal gastrectomy with extensive devascularization and splenectomy for, in cirrhosis (Yamamoto et al.), 106
Esophagoproximal gastrectomy, terminal, with extensive devascularization and splenectomy for bleeding esophageal varices, late results of, in cirrhosis (Yamamoto et al.), 106
Estrophile protein estimations, surgical implications of, in carcinoma of breast (Walt et al.), 506
Evaluations, multifactor, of surgical trainees and teaching services (Albo et al.), 115
Extra-anatomic bypasses for aortoiliac disease in high-risk patients (Plecha and Pories), 480

F

Fallot, tetralogy of, transatrial repair of (Edmunds et al.), 681
Fatty acids, volatile free, of blood after hepatectomy, alterations in (Zieve and Nicoloff), 554
Femoral tibial grafting, multiple sequential, for severe ischemia (Edwards et al.), 722
Fibrinogen, ^{125}I-, in detection of pulmonary allograft rejection (Bardfeld et al.), 575
Flow, renal cortical blood, and on renin release, effects of pulseless perfusion on distribution of (Goodman et al.), 31
Forefoot perfusion pressure and minor amputation for gangrene (Verta et al.), 729

G

Gallbladder scanning agent, new: biliary tract scanning with ^{99m}Tc-pyridoxylideneglutamate (Matolo et al.), 317
Gallstone pancreatitis: pathophysiology (Kelly), 488
Gangrene, forefoot perfusion pressure and minor amputation for (Verta et al.), 729
Gastrectomy, terminal esophagoproximal, with extensive devascularization and splenectomy for bleeding esophageal varices, late results of, in cirrhosis (Yamamoto et al.), 106
Gastric acid secretion, further evidence for intestinal phase hormone that stimulates (Orloff, Charters, and Nakaji), 145
  bypass for morbid obesity: results and complications (Hermreck, Jewell, and Hardin), 498
  mucosa, effect of histamine on technetium-99m excretion by (Wine et al.), 591
  mucosal barrier, maintenance of, during early erosive gastritis component of stress ulceration (Fischer, Jelense, and Fulton), 40
  ulcerogenesis, acute, is dependent on concentration of bile salt (Ritchie and Shearburn), 98
Gastritis component, early erosive, of stress ulceration, maintenance of gastric mucosal barrier during (Fischer, Jelense, and Fulton), 40
Gastrointestinal hemorrhage, massive: twenty-five year experience with vagotomy and drainage (McGregor, Savage, and McVay), 530
Gastroplasty modified Collis, dilatation, and Belsey hiatus hernia repair, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Geriatric patients, cardiac surgery in (Smith et al.), 443
Globulin, antithymocyte, randomized clinical trial of, in cadaver renal allograft recipients: importance of T cell monitoring, (Cosimi et al.), 155

Glucose, hypertonic, myocardial utilization of, during hemorrhagic shock (Stremple et al.), 4
Grafting, femoral tibial, multiple sequential for severe ischemia (Edwards et al.), 722
Graft(s), bovine arterial, further experiences with (Dale and Lewis), 711
infected aortic bifurcation: experience with fourteen patients (Becker and Blundell), 544
popliteal aneurysm resection with, progression of popliteal aneurysmal disease following: twenty year experience (Towne et al.), 426
Gut, shortened, onset of cell proliferation in: growth after subtotal colectomy (Buchholtz et al.), 601

H

Hagie pin, subclavian artery laceration due to migration of (Sethi and Scott), 644
Hamster, Chinese, microsurgical technique for orthotopic ovarian transplantation in (Schmidt et al.), 595
Hand, severe ischemia of, following radial artery catheterization (Baker, Chunprapaph, and Nyhus), 449
Health, cost of (Mustard), 283
Heart surgery, open, useful strategems in managing severe mediastinal infection following: total excision of sternum and thoracic pedicle transposition of greater omentum (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Heidenhain pouches, failure of pentagastrin administration to restore postprandial acid secretion from, after antrectomy in dogs (Keuppens et al.), 586
Helical ileum, absent mesentery and, jejunal atresia with (Zerella and Martin), 550
Hemodynamic(s), renal, adrenergic blockade and (McCombs and Berkowitz), 246
response to aortic clamping and declamping, role of prostaglandin E in (Rittenhouse et al.), 137
Hemorrhage, massive gastrointestinal: twenty-five year experience with vagotomy and drainage (McGregor, Savage, and McVay), 530
Heparinization, intraoperative, in vascular surgery, monitoring of (Manny et al.), 641
Hepatectomy, alterations in volatile free fatty acids of blood after (Zieve and Nicoloff), 554
Hepatic bile secretion following cholecystectomy, changes in (Nahrwold and Rose), 178
encephalopathy in man, effect of normalization of plasma amino acids on (Fischer et al.), 77
failure, acute, exchange transfusion and major surgery in (Silva, Parameswaran, and James), 343
portoenterostomy, microsurgery for: treatment of biliary atresia for (Suruga et al.), 558
Hernia, hiatus, repair, Belsey, dilatation, and modified Collis gastroplasty, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Heterophile (HT-A) and nonheterophile (HL-A) compatability, biologic effect of, on allograft survival. Heterophile system in human renal transplantation (McDonald, Evans, and Jacobbi), 14
system in human renal transplantation. VI. Biologic effect of heterophile (HT-A) and nonheterophile (HL-A) compatibility on allograft survival (McDonald, Evans, and Jacobbi), 14
Hiatus hernia repair, Belsey, dilatation and modified Collis gastroplasty, long-term follow-up of peptic strictures managed by (Pearson and Henderson), 396
Histamine, effect of, on technetium-99m excretion by gastric mucosa (Wine et al.), 591
Hormone, intestinal phase, that stimulates gastric acid secretion, further evidence for (Orloff, Charters, and Nakaji), 145
House staff, role of, in undergraduate surgical education (Lowry), 624
Human renal transplantation, heterophile system in. VI. Biologic effect of heterophile (HT-A) and nonheterophile (HL-A) compatibility on allograft survival (McDonald, Evans, and Jacobbi), 14
Hyperaldosteronism, "primary," hypertension due to—surgical considerations (Delarue et al.), 289
Hyperalimentation, intravenous, skin lesions during: zinc deficiency (Okada et al.), 629
Hypercalcemia in patients with known malignant disease (Samaan et al.), 382
Hypercapnic acidosis, unilateral internal carotid ligation, and hypocapnic alkalosis, influence of: cerebral blood flow determinations by radioactive microspheres in subhuman primate (Hobson et al.), 224
Hypergastrinemia, does hyperparathyroidism cause (Wilson et al.), 231
Hyperparathyroidism, does, cause hypergastrinemia (Wilson et al.), 231
Hypersplenism, experimental, splenic artery ligation in (Witte et al.), 581
Hypertension due to "primary" hyperaldosteronism—surgical considerations (Delarue et al.), 289
Hypertonic glucose, myocardial utilization of, during hemorrhagic shock (Stremple et al.), 4
Hypocapnic alkalosis, unilateral internal carotid ligation, and hypercapnic acidosis, influence of: cerebral blood flow determinations by radioactive microspheres in subhuman primate (Hobson et al.), 224

I

^{131}I-fibrinogen in detection of pulmonary allograft rejection (Bardfeld et al.), 575
Ileum, helical, absent mesentery and, jejunal atresia with (Zerella and Martin), 550
Immunological enhancement of renal allografts by antireceptor antibody (Stuart, McKearn, and Fitch), 130
Infarct, myocardial, volume, temporal factors in reduction of, by methylprednisolone (Shatney et al.), 61
Insufficiency, complicated acute coronary, surgical management of (Scully et al.), 437
Insulin-like activity, serum nonsuppressible, (NSILA), role of, in wound healing (Poffenbarger and Haberal), 608
Internal carotid artery stenosis, unoperated, asymptomatic significant: review of 182 instances (Humphries et al.), 695
Intestinal bypass for morbid obesity, alterations in body composition following (Spanier et al.), 171
phase hormone that stimulates gastric acid secretion, further evidence for (Orloff, Charters, and Nakaji), 145
Intraoperative autotransfusion: underutilized technique (Glover et al.), 474
Intraperitoneal antibiotic irrigation, protective role of, in contaminated penetrating wounds of cecum (Rakower, Keyes, and Miethaner), 405
Intravenous hyperalimentation, skin lesions during: zinc deficiency (Okada et al.), 629
Irrigation, intraperitoneal antibiotic, protective role of, in contaminated penetrating wounds of cecum (Rakower, Keyes, and Miethaner), 405
Ischemia, severe, of hand following radial artery catheterization (Baker, Chunprapaph, and Nyhus), 449
multiple sequential femoral tibial grafting for (Edwards et al.), 722
Ischemic colitis incidence following abdominal aortic reconstruction: prospective study (Ernst et al.), 417
injury, myocardial reperfusion, cause of, during cardiopulmonary bypass (Engelman et al.), 266
Islets of Langerhans, short-term culture of adult pancreatic fragments for purification and transplantation of (Matas et al.), 183

J

Jejunal atresia with absent mesentery and helical ileum (Zerella and Martin), 550
Jejunoileal bypass, adverse effects of, on growth and development (Grosfeld et al.), 201
for morbid obesity: early results and body composition changes in forty-five patients (Goldberger et al.) (sponsored by Clowes), 493

K

Kidney, liver and, catabolism of secretion by (Curtis et al.), 259

L

Langerhans, islets of, short-term culture of adult pancreatic fragments for purification and transplantation of (Matas et al.), 183
Left anterior descending and mainstem coronary arteries, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
ventricular outflow tract obstruction with apicoaortic valved conduit, surgical treatment of (Cooley et al.), 674

Ligation, primary arterial, for cancer of colon, technique of, as suggested by venous and lymphatic outflow studies (Ackerman), 312
splenic artery, in experimental hypersplenism (Witte et al.), 581
Lipids, plasma, and tissue cholesterol, synthesis, effect of portacaval shunt on, in dog (Coyle et al.), 54
Liver allografts, canine, active enhancement of—effect of pretreatment with prednisolone and donor-specific antigen (Lie et al.), 565
and kidney, catabolism of secretin by (Curtis et al.), 259
primary carcinoma of (McBride), 322
Lymphangioplasty: ten year evaluation (Silver and Puckett), 748
Lymphatic, venous and, outflow studies, technique of primary arterial ligation for cancer of colon as suggested by (Ackerman), 312

M

Mainstem, descending and, coronary arteries, left anterior, endarterectomy of: technique for reconstruction of inoperable arteries (Parsonnet et al.), 662
Malignant, benign and, teratomas in children: analysis of 85 patients (Grosfeld et al.), 297
disease, known, hypercalcemia in patients with (Samaan et al.), 382
Manpower, surgical, and residency training, questionnaire on (Siegel, Polk, and Skinner), 277
Mastectomy, subcutaneous, experience with (Woods, Masson, and Irons), 422
Mediastinal infection, severe, following open heart surgery, useful strategems in managing: total excision of sternum and thoracic pedicle transposition of greater omentum (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Melanoma of trunk: results of surgical excision and anatomic guidelines for predicting nodal metastasis (Sugarbaker and McBride), 22
Mesentery, absent, and helical ileum, jejunal atresia with (Zerella and Martin), 550
Metastasis, bone, precise selection of breast cancer patients with, for endocrine ablation (Minton), 513
nodal, results of surgical excision and anatomic guidelines for predicting: melanoma of trunk (Sugarbaker and McBride), 22
Methylprednisolone, temporal factors in reduction of myocardial infarct volume by (Shatney et al.), 61
Microaggregates in stored blood, effect of, on canine pulmonary vascular resistance (Giordano et al.), 617
Microneurosurgical embolectomy, middle cerebral artery (Dujovny et al.), 336
Microsurgery for hepatic portoenterostomy: treatment of biliary atresia for (Suruga et al.), 558
Microsurgical technique for orthotopic ovarian transplantation in Chinese hamster (Schmidt et al.), 595
Middle cerebral artery microneurosurgical embolectomy (Dujovny et al.), 336
Migration stimulatory factor, detection and evaluation of, in renal allograft recipients (Cerilli and Fesperman), 92
Mucosa, gastric, effect of histamine on technetium-99m excretion by (Wine et al.), 591
Mucosal barrier, gastric, maintenance of, during early erosive gastritis component of stress ulceration (Fischer, Jelense, and Fulton), 40
ulcerogenesis, acute gastric, is dependent on concentration of bile salt (Ritchie and Shearburn), 98
Myocardial infarct volume, temporal factors in reduction of, by methylprednisolone (Shatney et al.), 61
reperfusion, cause of ischemic injury during cardiopulmonary bypass (Engelman et al.), 266
utilization of hypertonic glucose during hemorrhagic shock (Stremple et al.), 4

N

Necrotizing enterocolitis, neonatal — personal experience (Roty et al.), 340
Neonatal necrotizing enterocolitis — personal experience (Roty et al.), 340
Nitrate, cerium: new topical antiseptic for extensive burns (Monafo et al.), 465
Nodal metastasis, results of surgical excision and anatomic guidelines for predicting: melanoma of trunk (Sugarbaker and McBride), 22
Nonheterophile (HL-A), heterophile (HT-A) and, compatibility, biologic effect of, on allograft survival. Heterophile system in human renal transplantation (McDonald, Evans, and Jacobbi), 14
Noninvasive ultrasonic carotid angiography: prospective validation by contrast arteriography (Barnes et al.), 328
Nonsuppressible insulin-like activity, serum, (NSILA), role of, in wound healing (Poffenbarger and Haberal), 608
Normovolemic anemia, acute, coronary and cardiovascular dynamics and oxygen availability during (Geha), 47
NSILA, serum and wound healing in rat, influence of thyroparathyroidectomy on (Poffenbarber and Haberal), 608

O

Obesity, morbid, alterations in body composition following intestinal bypass for (Spanier et al.), 171
—gastric bypass for: results and complications (Hermreck, Jewell, and Hardin), 498
jejunoileal bypass for: early results and body composition changes in forty-five patients (Goldberger et al.) (sponsored by Clowes), 493
Omentum, greater, thoracic pedicle transposition of, total excision of sternum and; useful strategems in managing severe mediastinal infection following open heart surgery (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Oral-facial cancers, anterior, application of contemporary reconstructive techniques in head and neck surgery for (Joyce and McQuarrie), 373
Orthotopic ovarian transplantation in Chinese hamster, microsurgical technique (Schmidt et al.), 595
Outflow, left ventricular, tract obstruction with apicoaortic valved conduit, surgical treatment of (Cooley et al.), 674
studies, venous and lymphatic, technique of primary arterial ligation for cancer of colon as suggested by (Ackerman), 312
Ovarian transplantation, orthotopic, in Chinese hamster, microsurgical technique for (Schmidt et al.), 595
Oxygen availability, coronary and cardiovascular dynamics and, during acute normovolemic anemia (Geha), 47
Oxygenation, twenty-four hour membrane, in dogs without anticoagulation (Fletcher et al.), 214

P

Pancreas, comparative value of four methods of investigating (Wood et al.), 518
cystadenocarcinoma of, presenting as splenic cyst (Shuman and Bouterie), 652
Pancreatic fragments, adult, short-term culture of, for purification and transplantation of islets of Langerhans (Mátas et al.), 183
trauma, delineation of critical factors in treatment of (Heitsch et al.), 523
Pancreatitis, gallstone: pathophysiology (Kelly), 488
Parathyroid, thyroid and, autotransplantation, total, for radiation-associated thyroid cancer (Paloyan et al.), 70
Pedicle, thoracic, transposition of greater omentum, total excision of sternum and; useful strategems in managing severe mediastinal infection following open heart surgery (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Pentagastrin administration, failure of, to restore postprandial acid secretion from Heidenhain pouches after antrectomy in dogs (Keuppens et al.), 586
Peptic strictures managed by dilatation, modified Collis gastroplasty, and Belsey hiatus hernia repair, long-term follow-up of (Pearson and Henderson), 396
Perfusion pressure, forefoot, and minor amputation for gangrene (Verta et al.), 729
pulseless, effects of, on distribution of renal cortical blood flow and on renin release (Goodman et al.), 31
Pericardial effusion, uremic, indications for pericardiectomy in (Connors et al.), 689
Pericardiectomy, indications for, in uremic pericardial effusion (Connors et al.), 689
Personality, cognition and, improvement of, after carotid endarterectomy (Haynes et al.), 699
Pig, portacaval-shunted, anorexia and weight loss in (Hickman and Terblanche), 569
Plasma amino acids, effect of normalization of, on hepatic encephalopathy in man (Fischer et al.), 77

Plasma amino acids—cont'd.
lipids and tissue cholesterol synthesis, effect of portacaval shunt on, in dog (Coyle et al.), 54
Popliteal aneurysm resection with graft, progression of popliteal aneurysmal disease following: twenty year experience (Towne et al.), 426
aneurysmal disease, progression of, following popliteal aneurysm resection with graft: twenty year experience (Towne et al.), 426
Portacaval shunt, effect of, on plasma lipids and tissue cholesterol synthesis in dog (Coyle et al.), 54
-shunted pig, anorexia and weight loss in (Hickman and Terblanche), 569
Portoenterostomy, hepatic, microsurgery for: treatment of biliary atresia for (Suruga et al.), 588
Postprandial acid secretion from Heidenhain pouches, failure of pentagastrin administration to restore, after antrectomy in dogs (Keuppens et al.), 586
Pouches, Heidenhain, failure of pentagastrin administration to restore postprandial acid secretion from, after antrectomy in dogs (Keuppens et al.), 586
Prednisolone and donor-specific antigen, effect of pretreatment with—active enhancement of canine liver allografts (Lie et al.), 565
Presidential address (Society of University Surgeons) (Ebert), 1
Primate, subhuman, cerebral blood flow determinations by radioactive microspheres in: influence of unilateral internal carotid ligation, hypercapnic acidosis, and hypocapnic alkalosis (Hobson et al.), 224
Prostaglandin E, role of, in hemodynamic response to aortic clamping and declamping (Rittenhouse et al.), 137
Protein, estrophile, estimations, surgical implications of, in carcinoma of breast (Walt et al.), 506
Proteolysis associated with deficit of peripheral energy fuel substrates in septic man (O'Donnell et al.), 192
Pulmonary allograft rejection, ^{131}I-fibrinogen in detection of (Bardfeld et al.), 575
vascular resistance, canine, effect of microaggregates in stored blood on (Giordano et al.), 617
Pulseless perfusion, effects of, on distribution of renal cortical blood flow and on renin release (Goodman et al.), 31

Q

Quality assurance: cost of utilization review and education value of medical audit in university hospital (McSherry), 122
Questionnaire on surgical manpower and residency training (Siegel, Polk, and Skinner), 277

R

Radial artery catheterization, severe ischemia of hand following (Baker, Chunprapaph, and Nyhus), 449
Radiation-associated thyroid cancer, total thyroidectomy and parathyroid autotransplantation for (Paloyan et al.), 70
injuries to bowel associated with treatment of carcinoma of cervix (Palmer and Bush), 458
Radioactive microspheres, cerebral blood flow determinations by, in subhuman primate: influence of unilateral internal carotid ligation, hypercapnic acidosis, and hypocapnic alkalosis (Hobson et al.), 224
Rat, influence of thyroparathyroidectomy on serum NSILA and wound healing in (Poffenbarger and Haberal), 608
Raynaud's syndrome, clinical significance of (Porter et al.), 756
Rectosigmoid colon, anterior anastomosis of: experimental study (McLachlin, Olsson, and Pitt), 306
Recurrent carotid stenosis (Stoney and String), 705
Refractory varicose ulcers, simplified technique for management of (Kwaan, Jones, and Connolly), 743
Renal allograft(s), immunological enhancement of, by antireceptor antibody (Stuart, McKearn, and Fitch), 130
recipients, cadaver, randomized clinical trial of antithymocyte globulin in: importance of T cell monitoring (Cosimi et al.), 155
detection and evaluation of migration stimulatory factor in (Cerilli and Fesperman), 92
arterial stenosis, experimental, relationship between collateral development and renin in (Ernst, Daugherty, and Kotchen), 252
Renal allografts—cont'd.
cortical blood flow and on renin release, effects of pulseless perfusion on distribution of (Goodman et al.), 31
hemodynamics, adrenergic blockade and (McCombs and Berkowitz), 246
transplantation, fate of patients surviving three years after (Matas et al.), 390
human, heterophile system in. VI. Biologic effect of heterophile (HT-A) and nonheterophile (HL-A) compatibility on allograft survival (McDonald, Evans, and Jacobbi), 14
Renin, relationship between collateral development and, in experimental renal arterial stenosis (Ernst, Daugherty, and Kotchen), 252
Reperfusion, myocardial, cause of ischemic injury during cardiopulmonary bypass (Engleman et al.), 266
Resection, popliteal aneurysm, with graft, progression of popliteal aneurysmal disease following: twenty year experience (Towne et al.), 426
Residency training, surgical manpower and, questionnaire on (Siegel, Polk, and Skinner), 277

S

Salt, bile, acute gastric mucosal ulcerogenesis is dependent on concentration of (Ritchie and Shearburn), 98
Secretin, catabolism of, by liver and kidney (Curtis et al.), 259
Septic man, proteolysis associated with deficit of peripheral energy fuel substrates in (O'Donnell et al.), 192
Serum nonsuppressible insulin-like activity (NSILA), role of, in wound healing (Poffenbarger and Haberal), 608
NSILA and wound healing in rat, influence of thyroparathyroidectomy on (Poffenbarger and Haberal), 608
Shunt, portacaval, effect of, on plasma lipids and tissue cholesterol synthesis in dog (Coyle et al.), 54
Skin lesions during intravenous hyperalimentation: zinc deficiency (Okada et al.), 629
Small bowel resection, fifty percent, effect of, on gastric secretory function in rhesus monkeys (Moossa, Skinner, and Winans), 208
Splenic artery ligation in experimental hypersplenism (Witte et al.), 581
cyst, cystadenocarcinoma of pancreas presenting as (Shuman and Bouterie), 652
Stenosis, experimental renal arterial, relationship between collateral development and renin in (Ernst, Daugherty, and Kotchen), 252
internal carotid artery, unoperated, asymptomatic significant: review of 182 instances (Humphries et al.), 695
recurrent carotid (Stoney and String), 705
Sternum, total excision of, and thoracic pedicle transposition of greater omentun; useful strategems in managing severe mediastinal infection following open heart surgery (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Stress ulceration, maintenance of gastric mucosal barrier during early erosive gastritis component of (Fischer, Jelense, and Fulton), 40
Strictures, peptic, managed by dilatation, modified Collis gastroplasty, and Belsey hiatus hernia repair, long-term follow-up of (Pearson and Henderson), 396
Subclavian artery laceration due to migration of Hagie pin (Sethi and Scott), 644
vein thrombosis, cephalic vein cross-over bypass for: case report (Hashmonai, Schramek, and Farbstein), 563
Subcutaneous catheters, closure of abdominal incisions with (McIlrath et al.), 411
mastectomy, experience with (Woods, Masson, and Irons), 422
Subhuman primate, cerebral blood flow determinations by radioactive microspheres in: influence of unilateral internal carotid ligation, hypercapnic acidosis, and hypocapnic alkalosis (Hobson et al.), 224
Surgery, vascular, my teachers of (Schenk), 657
Surgical education, undergraduate, role of house staff in (Lowry), 624
manpower and residency training, questionnaire on (Siegel, Polk, and Skinner), 277
trainees and teaching services, multifactor evaluations of (Albo et al.), 115
Syndrome, Raynaud's clinical significance of (Porter et al.), 756

T

T cell(s), in vitro effect of thymosin on, from immunodepressed surgical patients (Hardy, Freund, and Friedmann), 238
monitoring, importance of: randomized clinical trial of antithymocyte globulin in cadaver renal allograft recipients (Cosimi et al.), 155
^{99m}Tc-pyridoxylideneglutamate, biliary tract scanning with: new gallbladder scanning agent (Matolo et al.), 317
Teachers, my, of vascular surgery (Schenk), 657
Teaching services, surgical trainees and, multifactor evaluations of (Albo et al.), 115
Technetium-99m excretion by gastric mucosa, effect of histamine on (Wine et al.), 591
Teratomas, benign and malignant, in children: analysis of 85 patients (Grosfeld et al.), 297
Tetralogy of Fallot, transatrial repair of (Edmunds et al.), 681
Thiabendazole: potential adjuvant in cancer therapy (Lundy et al.), 636
Thoracic pedicle transposition of greater omentum, total excision of sternum and; useful strategems in managing severe mediastinal infection following open heart surgery (Lee, Schimert, and Shatkin) (sponsored by Seigel), 433
Thrombophlebitis, calf vein, importance of (Moreno-Cabral, Kistner, and Nordyke), 735
Thrombosis, subclavian vein, cephalic vein cross-over bypass for: case report (Hashmonai, Schramek, and Farbstein), 563
Thymosin, in vitro effect of, on T cells from immunodepressed surgical patients (Hardy, Freund, and Friedmann), 238
Thyroid cancer, radiation-associated, total thyroidectomy and parathyroid autotransplantation for (Paloyan et al.), 70
Thyroidectomy and parathyroid autotransplantation, total, for radiation-associated thyroid cancer (Paloyan et al.), 70
Thyroparathyroidectomy, influence of, on serum NSILA and wound healing in rat (Poffenbarger and Haberal), 608
Tibial grafting, femoral, multiple sequential, for severe ischemia (Edwards et al.), 722
Tissue cholesterol synthesis, plasma lipids and, effect of portacaval shunt on, in dog (Coyle et al.), 54
devitalized, role of; peripheral dissemination of bacteria in contaminated wounds: evaluation of therapeutic measures (Dhingra, Schauerhamer, and Wangensteen), 535
Tracheal obstruction, imminent, method of anesthesia for (Coles et al.), 379
Training, residency, surgical manpower and, questionnaire on (Siegel, Polk, and Skinner), 277
Transatrial repair of tetralogy of Fallot (Edmunds et al.), 681
Transfusion, exchange, and major surgery in acute hepatic failure (Silva, Parameswaran, and James), 343
Transplantation, human renal, heterophile system in. VI. Biologic effect of heterophile (HT-A) and nonheterophile (HL-A) compatibility on allograft survival (McDonald, Evans, and Jacobbi), 14
orthotopic ovarian, in Chinese hamster, microsurgical technique for (Schmidt et al.), 595
renal, fate of patients surviving three years after (Matas et al.), 390
Trunk, melanoma of: results of surgical excision and anatomic guidelines for predicting nodal metastasis (Sugarbaker and McBride), 22
Tumors, carotid body (Dent, Thompson, and Fry), 365

U

Ulceration, stress, maintenance of gastric mucosal barrier during early erosive gastritis component of (Fischer, Jelense, and Fulton), 40
Ulcerogenesis, acute gastric mucosal, is dependent on concentration of bile salt (Ritchie and Shearburn), 98
Ulcers, refractory veins, simplified technique for management of (Kwann, Jones, and Connolly), 743
Ultrasonic carotid angiography, noninvasive: prospective validation by contrast arteriography (Barnes et al.), 328
Undergraduate surgical education, role of house staff in (Lowry), 624
Uremic pericardial effusion, indications for pericardiectomy in (Connors et al.), 689
Utilization review, cost of, and educational value of medical audit in university hospital: quality assurance (McSherry), 122

V

Varicose ulcers, refractory, simplified technique for management of (Kwaan, Jones, and Connolly), 743
Vascular compression of duodenum (Burrington) (letter to editors), 655; reply (Skandalakis), 655
resistance, canine pulmonary, effect of microaggregates in stored blood on (Giordano et al.), 617
surgery, monitoring of intraoperative heparinization in (Manny et al.), 641
my teachers of (Schenk), 657
Vein, calf, thrombophlebitis, importance of (Moreno-Cabral, Kistner, and Nordyke), 735
cephalic, cross-over bypass for subclavian vein thrombosis: case report (Hashmonai, Schramek, and Farbstein), 563
subclavian, thrombosis, cephalic vein cross-over bypass for: case report (Hashmonai, Schramek, and Farbstein), 563
Velocity, blood, tracings, Doppler, value of, in detection of aortoiliac disease in patients with intermittent claudication (Nicolaides et al.), 774
Venous and lymphatic outflow studies, technique of primary arterial ligation for cancer of colon as suggested by (Ackerman), 312
Ventricular, left, outflow tract obstruction with apicoaortic valved conduit, surgical treatment of (Cooley et al.), 674

W

Weight loss, anorexia and, in portacaval-shunted pig (Hickman and Terblanche), 569
Wound(s), contaminated, peripheral dissemination of bacteria in; role of devitalized tissue: evaluation of therapeutic measures (Dhingra, Schauerhamer, and Wangensteen), 535
healing, role of serum nonsuppressible insulin-like activity (NSILA) in (Poffenbarger and Haberal), 608
serum NSILA and, in rat, influence of thyroparathyroidectomy on (Poffenbarger and Haberal), 608

Z

Zinc deficiency: skin lesions during intravenous hyperalimentation (Okada et al.), 629
